

## Personal investor costs and charges information

What you pay to invest should never come as a surprise. It's important because every pound you pay in charges is a pound out of your potential returns. The lower your charges, the better your chance of investment success.

Recent regulatory developments (MiFID II) have increased the transparency on costs and charges that investors pay when buying investment products. The amount investors pay has not changed as a result of the regulations, but hopefully over time, the greater focus on costs will lead to lower charges for all investors.

Vanguard Personal Investor clients pay two main costs, fund management costs and an account fee. These are explained further in this document.

### 1. Fund management costs

**Ongoing costs:** This includes the Ongoing Charges Figure (OCF) which is paid to Vanguard for managing the fund and associated costs. These fees are deducted from the price of the fund.

**Transaction costs:** These are the charges incurred within the fund for buying and selling the underlying investments. It includes dealing costs and taxes. We use our scale and experience to trade globally to keep these costs as low as possible. These charges are not paid to Vanguard but are deducted from the fund's price and are reflected in the performance of the fund. This has always been the case.

**One-off costs:** Vanguard ETFs incur one-off costs in the form of a Bid-Offer Spread on any trades made. We estimate the spread using a rolling 30-day average per fund which may differ from the actual spread incurred. Currently Vanguard mutual funds do not incur one-off costs.

Vanguard funds do not currently have any **incidental costs** (for example performance fees).

### 2. Account fee

This is paid to Vanguard for the provision of the Vanguard Investor online service. It is an annual charge calculated daily and deducted in arrears on a quarterly basis. The charge is 0.15% per annum of the value of your account holdings, including cash, up to £250,000, with a maximum annual charge of £375.

Please note when you choose to invest in an ETF via our Quote and Deal service we will deduct a fixed charge of £7.50. If you use our ETF batch dealing service which aggregates trades twice a day, this fee is waived.

### 3. Interest on cash balances

Interest will be earned on cash balances at a managed rate, meaning that it will be fixed and updated from time to time. The rate will be determined by reference to the interest we receive from the bank(s) we deposit your money with and the cost to us of managing cash within your account. We will retain any extra interest we receive on your cash above the stated rate to cover the costs of administration. Further information on the applicable interest rates can be found here <https://www.vanguardinvestor.co.uk/need-help/answer/will-i-receive-interest-on-cash-held-in-my-account>

### Total cost of investing for Vanguard Personal Investor clients

Your total cost of investing will be the total of the above charges and is shown in the final column of the table below for each fund.
